CREATIVE ARTISTS PUBLIC SERVICE  
FELLOWS IN VIDEO 1979-80

The **EXPERIMENTAL TELEVISION CENTER** is a video facility dedicated to the production and study of electronic imaging.

The Center's programs include a production facility of image processing, synthesis and computing devices available to independent videomakers, a video tape and print library, a series of workshops and exhibitions as well as a program of research and development of video tools and systems.

The E.T.C. is supported in part by the N.Y.S.C.A. and N.E.A. with assistance provided by the Department of Cinema, S.U.N.Y., Binghamton.
